

MWC G10BH PVD 2007 Military Watch

Report by Paul Mason FBHI

Introduction

Telford Services LLC, the United Kingdoms leading supplier of military watches asked Mr Paul Mason FBHI to carry out an inspection of a Military Watch Company (MWC) G10BH Military Watch. Mr Mason was recommended by the BHI as an independent watch maker of the highest integrity with over 35 years experience.

About Paul Mason

He served his apprenticeship in Watford repairing watches and clocks. He came third in Europe in his Final's horological exams earning the right to become a Fellow of the British Horological Institute. He worked for five years at Cartier, New Bond Street, London, the premier jewellers, repairing and assembling new build watches. He started his own business in 1973. In 1980 Paul commenced making clock movements. First for longcase clocks and moving on to small movements and automata for the West End object d'art trade.

Paul carries out repair and overhaul of all leading brands of watches from rotary to Rolex to Patek Philippe. Repair and restoration of all pocket watches from English lever to top quality minute repeaters.

The Report

Watch : M.W.C Military Quartz Watch

Strap : Fully functional, hard wearing with stainless steel fittings.
